

## Planetary Activations of our Time – We are Stardust

All nations and peoples are covered by the same canopy of the starry heavens and the “Mind of God-Goddess” speaks to us all through the signs in the sky, equally and lovingly. We just need to open our eyes and hearts, look up, within and listen to the messages we are being given by our Creator in the Heavens & upon our Earth.

### The 60's Wake-up Call - Flower Power!

“We are Stardust, We are Golden and We have to get back to the Garden.....” these were the words and song of the 60's “Woodstock generation”. This decade was ignited by the conjunction (coming together) of the revolutionary planets, Pluto and Uranus in Virgo throughout the 60's. This configuration inspired a whole generation searching for the truth and meaning of existence, civil rights and a desire to return to a balance with nature . These were the Flower children, the Starborn that gave birth to the frustrated and advanced “Indigo” children who are giving birth to the new evolved “Crystal” and “Rainbow” children.

We are part stardust. We share the same molecular structure with the Stars and are made up of the same carbon. We are dependent on the sun, moon, and stars for all life.

### 1977 Healing our Wounds-the Gift of Chiron

1977 brought in the sighting of a large planetary body between Saturn and Uranus. The appearance of a new sighting in the solar system coincides with our collective evolution in the global psyche when we can incorporate this new energy. This “planetoid”, was given the name, Chiron. Chiron in ancient Greek times was a centaur (having the body of a horse and the head of a man), representing our physical animal body and urges and our ability to evolve and raise our consciousness to higher aspects of the Godhead. Chiron was known as the “wounded transformational healer”, master guide, astrologer and shamanic teacher. The appearance and activation of Chiron brings up the wounds in our personal lives (past & present) as well as the global collective wound in the pain body of our planet. This enables us to evolve and shift our consciousness. Chiron's discovery has brought in the use and respect of vibrational healing modalities for balancing the mind/body & spirit on subtle levels that are now being accepted globally.

### 1987 SuperNova & The Harmonic Convergence

In 1987 a rare event took place in the heavens as a Super Giant Blue Star went “Supernova”. Supernova is when a massive star exhausts its nuclear fuel and explodes. This propels vast amounts of star stuff outwards filling the surrounding space with hydrogen, helium and other gases that we need for our very existence. This was only the fifth Supernova to be observed in our galaxy in the last 1,000 years. Its' effects will continue for 100,000 years! Science writer, Donald Goldsmith wrote; “Supernovas make cosmic ray particles, cosmic ray particles produce mutations, mutations drive evolution. The supernova of 1987 can be seen as the latest in the chain of events that shaped our solar system, our Earth and ourselves.” These are actual living energies, codes of light and of new life. True to the ancient axiom “As above, So below” at the same time, Jose Arguelles, visionary teacher, peace pilgrim and author of the well-known book “The

Mayan Factor” initiated the “Harmonic Convergence”. This took place on August 16-17, 1987 as a world wide gathering and celebration of people all over the world to create and strengthen a unification field of consciousness and the opening of the heart chakra on the Earth Grid.

### 1999 The Last Total Eclipse of the Millennium

Eclipse cycles bring the dark shadow into light to catalyze global change. On August 11, 1999, the last total lunar eclipse of the millennium occurred. An astrological configuration known as a Fixed Cosmic Cross pattern was created in the sky. This was created with the Sun and Moon in Leo, Neptune and Uranus in the sign of Aquarius and Jupiter and Saturn were in Taurus, with Chiron and Mars in Scorpio. This pattern was a keyhole, Love and Unity the key that was to be turned to open the lock enabling us to shift into the Aquarian millennium. The path began in the Atlantic (Atlantis) and was first seen in Cornwall, England where millions of people gathered along the path for this extraordinary event. As the eclipse passed over these sites it activated the important sacred centers and archetypes of the Piscean Age. The eclipse followed the path of the Christ, the Arthurian Grail land and touched upon sacred sites before ending its journey in the Holy land of India. This eclipse closed the Piscean Age and opened the portal for the Age of Aquarius. Since this eclipse we have been releasing the past wounds of the Piscean Age and can now bring in a new frequency and new paradigm based on Aquarian values based on Global Unity, Fellowship and Love.

### 9/11 Forced to Change

On 9/11 2001 was the shocking attack of the World Trade center. This happened as the explosive transformative planetary power of Pluto was on the ascendant (the body) of the U.S. and planet Saturn, the reality tester, lord of karma, form and structure was on the U.S. descendant (partnership area). Both these planets were aligned to “Gatekeeper” stars known of in ancient times as the “Royal Architect stars” in the heavens. Pluto was aligned to Antares, the “Heart of the Scorpion” star and Saturn was aligned to Aldebaran “the Eye of the Bull”. These stars hold the energy and vision of Truth & Unity. The trauma and shock of the 9/11 disaster effected and changed the entire consciousness of the planet and all people for all time. This has had a profound effect throughout the world and has made humanity take time to contemplate what is of real importance in life and how precious our lives are.

### 2003 & 2004 till 2012- Time of Balance & Unity

On November 8, 2003 we experienced another Total Lunar Eclipse. This beautiful cosmic event was called the “Harmonic Concordance”. The Sun was in the sign of Scorpio and the Moon was in the sign Taurus. Uranus went direct(forward motion) for the the last few weeks of its 7 year cycle in its own sign of Aquarius which has been propelling the shifting of the Ages. A perfect stargate was created with a grand trine(creative balanced flowing energy) in Earth and an interlocking grand trine in Water producing a six-pointed Star of David, a Merkabah. The Merkabah is a geometric form and symbol of evolution and integration of the body and soul, the harmony and balance of opposites. This represented the resurrection of Mary Magdalen as the bride of Jesus

Christ and the Sacred Marriage. The sacred union of the Divine Feminine and the Divine Masculine on our planet. This event gave birth to a new Vehicle of Light as a grand sextile formation surrounding this Stargate enlivened and spun the merkabah repairing the 12 strand DNA of creation.

### 2003 & 2004-Women are from Venus, Men are from Mars!

In early 2003, Mars the Warrior male planet of fire, energy and power retrograded (review time) for a long time and came closer to Earth than it had in many thousands of years. This ignited the war in Iraq and brought to the surface anger and frustration for the misuse of power of the governments of the world by people demonstrating in mass all over the world.

June 8, 2004, Venus the Love Goddess and female planet of union, attraction, beauty and harmony retrograded (review time), and eclipsed our Sun for the first time in our lifetime. The venus passage between the Earth and Sun occurs every 122 years. The feminine energies of Venus that have been eclipsed (overshadowed) by the masculine energies of the Sun will now rise to restore proper balance between the sexes. The Venus passage has been called the "Celebration of Oneness" and brings with it great strides in global communication, unity and female empowerment. Venus is asking us to first, transform our relationship with ourselves and then with others coming from a place of acceptance and forgiveness. During her passage the power of transformational Pluto was opposing Venus. Oppositions make us aware of the need for balance. Venus wants us to heal and open our hearts to feel safe to Love and attract beauty, peace and harmony. The Venus eclipse comes in pairs. The next being in June of 2012. We have these next 8 years, to "Get it Together" and make the great shift. By then the unity and equality of male -female must come into balance for ourselves and our planet to survive. It is up to each and everyone to make this happen.

### Resurrection of Sedna- the Tsunami of 2004 & Hurricane Katrina

In March 2004 another new planet was announced to the world. The planet was named, Sedna after the Inuit peoples of Canada and Alaskas Goddess of the Sea. Sedna's story is of woman being abused by the Father (patriarchy) and then was finally honored as the giver of life, Mother of all living and Goddess of the Sea. When she is not being honored the Ocean waters rise & life is destroyed. Much as the story of Mary Magdalen and so many other Goddess and woman figures throughout her story. This is another sign of the importance of the resurrection and re-emergence of the divine feminine appearing now to give birth to a new life sustaining planetary consciousness.

### Pisces to Aquarius- the Changing of Ages

Another planetary sign of the changing of the ages is with the planet Neptune, the planetary ruler of the Piscean Age now in the sign of Aquarius and the planet Uranus, the planetary ruler of the Aquarian Age in Pisces until 2011. In astrology this planetary interchange is known as "mutual reception". In mutual reception the planets involved empower, support and strengthen one another.

The balancing of the polarities, the sacred geometry of the Vesica Piscis of creation has been manifesting, with great intensity and quickly since the new millennium. These activations are major signs of a turning point, a portal of opportunity for a new paradigm and a time that is birthing a new spiritual consciousness based on honest, caring, balanced and loving values.

This is the dawning of the Age of Aquarius. 2012 is the predicted end time of the Mayan Calendar. We must be living in "Cosmic Christ Consciousness" and in the truth and knowledge of our Unity & Oneness.

So Mote it Be!

Elizabeth

I would love to hear from other earthkeepers & galactic friends
