

**WE CAN BEE THE CHANGE WE WISH TO BEE!**  
**2011 - The Year to Bee Unity Consciousness and give Birth to the Golden Age of Aquarius**  
**Elizabeth Heartstar Keller**

I would like to share this prayer and invite you to read these words with your heart. Mayan Elders recited this prayer at the Unification Maya Fire Ceremony 2010 Winter Solstice - Total Lunar Eclipse in Tikal, Guatemala:

**We connect our Heart to the One Heart**  
**Heart of the Heaven**  
**Heart of the Earth**  
**Heart of the Water**  
**Heart of the Fire**  
**The 4 Winds**  
**We Breathe**  
**Is the Heart of our Life**

The purpose of this prayer is to assist us in remembering that We are One with All that Is!

For our Global Rainbow Bridge Visualization watch the You Tube: **“Jose Arguelles 2012 Prophecy”**  
**Jose shares how “We can prove that human beings can do something great by synchronizing in a positive telepathic unified vision the “Circumpolar Rainbow Bridge” around the Earth for a healing of our Hearts, of our Earth and of our Lives, producing instant Spiritual Evolution”.**

2011, the year to Bee Unity Consciousness and give birth to the Golden Age of Aquarius was conceived on the new moon of October 7, 2010. Nine months later on July 1, 2011 at 7:53 am GMT at the South Pole, a new Solar Eclipse will be born. During the nine-month window of time we are co-creating and parenting a new global unified consciousness, and a new reality. Therefore, it is important to be mindful of all our thoughts and actions for the outcome of this global event will impact every person on the planet. This is a clarion call for all sentient beings to come into the resonance of the sacred heart. When we do this we create a unified field for world peace and for a new paradigm, our universal destiny, based on love and equality.

At this new Solar eclipse the Sun and Moon will be aligned to the brightest and closest stargate in our sky, that of Sirius. It has always been an important guiding star helping to navigate on the Earth and in the Heavens. The ancient Egyptians and other civilizations have honored Sirius as Isis, bringer of Light and Life. Sirius is the home to many ascended masters, star beings, dolphins and whales assisting in humanity’s evolution.

We have just witnessed the changes happening in the world which began this year in Egypt, the cradle of ancient civilization. The effect of the uprising brought people together to claim their human rights, demand freedom and a fair government that will create supportive systems for its people. This has had a ripple effect throughout the world thanks to the Internet, which has helped us communicate instantly and know the reality of our global world community.

2011 is an unusual year for eclipse cycles. This year there will be four Solar eclipses and this is twice as many eclipse cycles as in most years. Solar eclipses are the most potent of the new moon energy. At the time of the Solar eclipse the Sun and Moon come together, they “hide” and take something away that is no longer needed. Thus Sun and Moon cast their shadow on the Earth, while they unite to create something new.

Solar and Lunar eclipses are based on the geometrical dance of the Sun, Moon and Earth. An eclipse brings the hidden shadow into light. This creates a portal that is critical for our evolution, the effect of which is long lasting, catalytic and global. The moon must be near one of the lunar nodes, the spots on the zodiac where the Moon’s orbit crosses the earth’s orbit. When an eclipse is first created it happens at either the North Pole or South Pole of the Earth.

A Lunar eclipse occurs when the full moon passes behind the Earth blocking the Sun’s rays. The Solar eclipse occurs when the new moon passes between the Earth and the Sun casting a shadow on the Earth’s surface. At the time of an eclipse a consciousness is born with a story line or theme based on what is happening in the collective consciousness at that moment. On July 1, 2011 at 7:53 am GMT the new solar eclipse will be born, evolve and grow for 1226.05 years.

Astronomers’ catalogue and number eclipse cycles and these are called eclipse “saros series”. Each saros series is in existence for 1200 to 1500 years. As they continue to grow, they spiral around Earth in a dance between the Sun, Moon and Earth. Every 18 years an eclipse “saros series” casts its shadow on a different location on the Earth. At that time more light is shed on the theme or story of the eclipse. After about 600 years, which is halfway through the saros cycle, the eclipse “Total” phase begins. This is when the full light of the “story” of the eclipse can best be seen in its Totality. It then takes another 600 years to complete its life cycle, spiraling to the opposite end of the pole of the Earth from where it began.

The phrase “cycles within cycles”, expresses the many eclipse cycles that are always spiraling our Earth. There are usually over 80 active saros cycles always in existence. There are around 40 Lunar Eclipses and about 40 Solar Eclipses in existence at all times.

The oldest Lunar eclipse that is still in existence began in 718 AD. The latest Lunar eclipse happened in the year 1984. This year always brings to mind the book, "1984" written by George Orwell who was a visionary political author. The book was published in 1949 and became a best seller. In the 1960's, it became popular with the people involved in the revolutionary movement who were reading and talking about it. The book described how "Big Brother" would be watching over us, with the fear of an intrusive bureaucratic social system happening in the future. May 25, 2013 will be the next time a new Lunar eclipse will be born. The oldest Solar eclipse still in existence began in 792 AD. The last Solar eclipse was in 1928, the next being this year on July 1, 2011.

On August 11, 1999 the last Total Solar eclipse of the century occurred. The path of the eclipse shadow started in the Atlantic Ocean off the coast of Cornwall, England and ended in India. It passed over and activated important sacred sites of the Piscean Age. A fixed cross pattern was created in the horoscope with the planet Chiron, the wounded transformational healer, and thus began a time for our personal and global healing. This was preparing the way for the new Solar eclipse on July 1, 2011, the dawning and birthing of the Age of Aquarius!

July 1, 2011 is a most auspicious date. It is a gift to us all allowing us to co-create a global unified field of cosmic consciousness that will propel the shift of the ages. This eclipse speaks of creation for it is a cosmic event produced by Source. The event, the effects of which will be experienced throughout our lifetime and beyond, will succeed for future generations until the year 3237.

What a blessing we have at this time to co-create the Shift of the Ages.....

I first became interested in eclipse cycles in November 1993 on my visit to England, which included Glastonbury, Stonehenge and Avebury stone circle. While there I found out this was during a Lunar eclipse. When I led my first pilgrimage to England the following year, there was another eclipse. My life changed dramatically after this. I had been a student of astrology since 1969, however it was after these journeys that I knew it was time to fulfill my spiritual mission by becoming a full time astrologer. Since that time I have lived between Sedona, Arizona and Glastonbury, England. In England I guide pilgrimages to the sacred sites including Stonehenge and Avebury, as well as experiencing the phenomenon of the magnificent "temporary temples" known as crop circles.

It is no wonder that the majority of the world's mysterious messengers, the crop circles are found close to these sacred sites. Stonehenge "Temple of the Stars" and Avebury the "Winged Serpent Temple" work together as cosmic and earth energy portals and are major acupuncture points on the Earth grid. They are temples for ceremony to connect Heaven and Earth for the benefit of the land, the people and life on our Mother Earth. I learned Avebury was 28 miles in diameter, the number of days in a moon cycle and that there are 18 miles distance between Avebury and Stonehenge. 18 happens to be the number of years for an eclipse saros cycle to become active. Discovering many synchronicities based on fact, confirmed my belief that our ancient ancestors created Stonehenge and Avebury to predict eclipse cycles and mark the Equinox and Solstice times for ceremony to bring balance to Earth.
