

## To Our Mother Earth

Most beautiful Divine and Holy Mother,  
We are your dreamers, your joy manifest in unending dance.  
We invoke thee, we adore thee, we become thee.

We thank thee for our celestial source.  
We are your children, starborn. We are the essence of starlight,  
We dance starfire.

We are the secrets of this world. We dream a perfect reality.  
We create, we destroy, we unite, we separate. We perform in harmony the dance  
of this universe.

We are the chalice of Cosmic Fire & Water.  
We are the sacred components of your great cathedral, placed upon your holy altar. We  
place now our highest intentions as lightworkers to halt the downward spiral of  
negativity as perpetuated by the legions of darkness and to empower on this planet all  
sentient beings on their path to re-membering their God-dess essence and divine  
birthright.

We open to Thee, the sacred bridge of Love, Divine & Holy Mother  
In your honor we form a circle, to remind us of the Temple entrance.  
In your honor we acknowledge our sisterhood as the sacred elixir of creation In your  
honor we make the dark silence where the dream fire forms. Our sisterhood is an  
unending chain of beauty, unity, love & compassion.

We are connected as One Love wherever we may journey in our life on our Planet  
Goddess Earth, Blessed Be!
